*Please note: The average cost for educating a student at a comparable private, not-for-profit, school in the GTA is more than \$15,000 per year. Alhamdulillah, with the quality of Islamic and academic education, and school environment at OGS, we still keep the tuition considerably below the average cost. **We welcome all your generous financial support.***

² Tuition fee is paid over 10 equal monthly installments (Aug to May for elementary students and Jun to Mar for high school students).
