ABOUT US

The Muslim Association of Canada (MAC) and the Edmonton Muslim Community established the MAC Islamic School (MIS) in 2013. MIS is a registered full time accredited Elementary and Junior High school serving children from Preschool to grade nine. Currently, we have an enrollment of over four hundred students from Preschool to Grade 9, from varying cultural backgrounds.

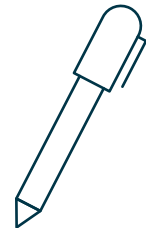

At MIS, we are committed to mainstreaming Islamic values and teaching through our holistic iRISE approach, firmly centred around one's relationship with Allah SWT. We cover the Alberta Education curriculum, including Quran, Arabic, and Islamic Studies.

1

OUR PROGRAMS

MAC Islamic School provides a structured faith-based environment for students from Preschool through Junior High.

Our curriculum meets the educational standards of the Alberta Program of Studies, from which Alberta certified teachers are required to teach. We help our students deepen their Islamic faith and foster a commitment to life-long learning by actively drawing upon their strengths and talents.

CREATIVE MINDS PRESCHOOL

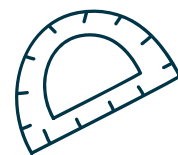

The goal of the Creative Minds Preschool is to develop inner discipline in preschool children by teaching them about making good choices, receiving consequences, and assuming responsibility for behaviour. We offer Quran, Arabic and Islamic Studies for preschool children ages three to five years. Our goal is to nurture our children's well-being and develop their inherent love of learning in a caring environment.

Using strategic play-based opportunities, our students develop growing confidence in communication, literacy and numeracy. We foster a growing awareness of diversity and social responsibility through developmentally appropriate activities. Creative Minds Preschool promotes collaborative relationships in a child-centred environment, thereby encouraging growth, creativity, and critical thinking.

FULL DAY KINDERGARTEN AND ELEMENTARY

The Kindergarten to Grade 6 program facilitates creativity, critical thinking, problem-solving, and collaboration.

The development of social, moral, and spiritual skills helps our students excel. Students discover their unique personalities and use their strengths to make positive contributions to the community.

**Pictures taken pre-covid*

JUNIOR HIGH

Our Junior High program caters to students in Grades 7-9.

Students acquire the skills and tools necessary to succeed in high school and beyond. Students engage in a rich curriculum of academic, spiritual, social, and moral development. Students gain a deeper understanding of their Canadian identity and are inspired to be leaders in the 21st century.

QAIS: QURAN, ARABIC, AND ISLAMIC STUDIES

Based on the teachings of the Quran and Sunnah, we strive to strengthen our students' Canadian identity and instill the universal values of love, peace, justice, and tolerance.

The Arabic curriculum is developed based on the standards of industry experts. Quran Studies integrate Qaida Nooraniyah with subsequently advancing levels, including Tafseer. Islamic Studies curriculum is carefully devised, thereby engaging students to think critically about their Muslim identity in Canada today.

iRISE

iRISE is an evidence-based, community-driven, character education program. Whereby students embody Islamic values and acquire relevant life skills to meet the 21st-century challenges, rooted in developing a strong relationship with Allah SWT.

iRISE STANDS FOR:

i

Symbolizes the personal connection to Allah SWT and ownership of the values

R

RABBANIYAH

Developing one's faith and being God-centered

I

INTEGRITY

Strong, internally-driven moral principles

S

SERVICE

Acting upon one's responsibility for all concentric circles: from individual to family to society to the world

E

EXCELLENCE

Developing knowledge, skills, and personal attributes to reach one's full potential

Our vision is to encourage students to embody the Islamic character, to reach their full potential, and to have a strong sense of responsibility and care. We are preparing our students to rise above any challenges they may face.

ENRICHIT!

The purpose of EnrichIt! is to strive to enrich education through a wide variety of experiences. The advantage of enhancing theory with hands-on learning methods allows students to grasp difficult concepts easily, having fun while seeing theory bloom into something they created.

EnrichIt! activities are age-appropriate and motivate students to extend their interest beyond the Alberta Curriculum. Many EnrichIt! activities act as motivation for long term student success as they take part in activities that challenge them and broaden their horizons through a variety of fun and interactive opportunities. Contributing to a well-rounded education.
