Accountability Statement

The Education Plan for MAC Islamic School was prepared under the direction of the Board in accordance with its responsibilities under the Private Schools Regulation and the Education Grants Regulation. This document was developed in the context of the provincial government's business and fiscal plans. The Board has used the results reported in the document to the best of its abilities, to develop the education plan and is committed to implementing the strategies contained within the plan to improve student learning and results.

MAC Islamic School Edmonton's 2021-2022 Budget can be accessed from www.macislamicschool.com.

The Board has approved this Education Plan on May 28, 2021.

Dr. Nabil Sultan
MAC Board Chair

Muslim Association of Canada (MAC)

The Muslim Association of Canada (MAC) is a Canadian, independent, national, faith-based, charitable organization, that provides spaces, services and programs for holistic education and personal development for Canadian Muslims. In addition, MAC focuses on building communities and strengthening neighbourhoods nation-wide, through services and collaborations with groups from different religious, ethnic, and racial backgrounds.

MAC offers an approach that emphasizes the holistic message of Islam within the context of a pluralistic society and hence, a message that respects all faiths and Canadian institutions, traditions, and values. MAC believes that the personal development of every individual is key to a real and fruitful involvement in the community. It brings a balanced, constructive and engaged understanding of Islam that aims to inspire Muslims in Canada and throughout the world.

Over the past two decades MAC has grown to be the largest grassroots Muslim organization with a national reach rooted in strong local chapters in 14 cities across Canada. MAC has 50 institutions ranging from full-time school, community centers, weekend school, and child-care centers. In all, MAC serves more than 50,000 community members weekly.

Providing parents with excellent educational alternatives is paramount. It is fundamentally important that parents have as much ability to choose the path in the education of their children. We take this very seriously and over the years we structured many options for parents to choose from.

MAC constructed its educational model on two main ideals. Firstly, the premise that every youth has the potential to be a leader. This premise is encompassed in the following noble prophetic tradition: "All of you are a guardian, and are responsible for what is entrusted with." Equally important, the second premise, which is the basis of community capacity building, is that no one is without capacity. It just often needs to be developed. Our educational program was developed for nurturing and developing this potential through fostering the development of agency, connectedness, and competence in children as they pass through the phases of becoming youth and then young adults.

Integrated within this curriculum is

- To continuously enhance the student learning outcomes
- To ingrain a greater spiritual awareness that leads to a meaningful connectedness to Allah (God) and His creation
- To build a stronger moral foundation
- To cultivate a greater sense of civic responsibility
- To inculcate a deeper connection to the community

Through our planning cycle, we built our strategy around these objectives:

1. Building Inclusive and safe learning Spaces:

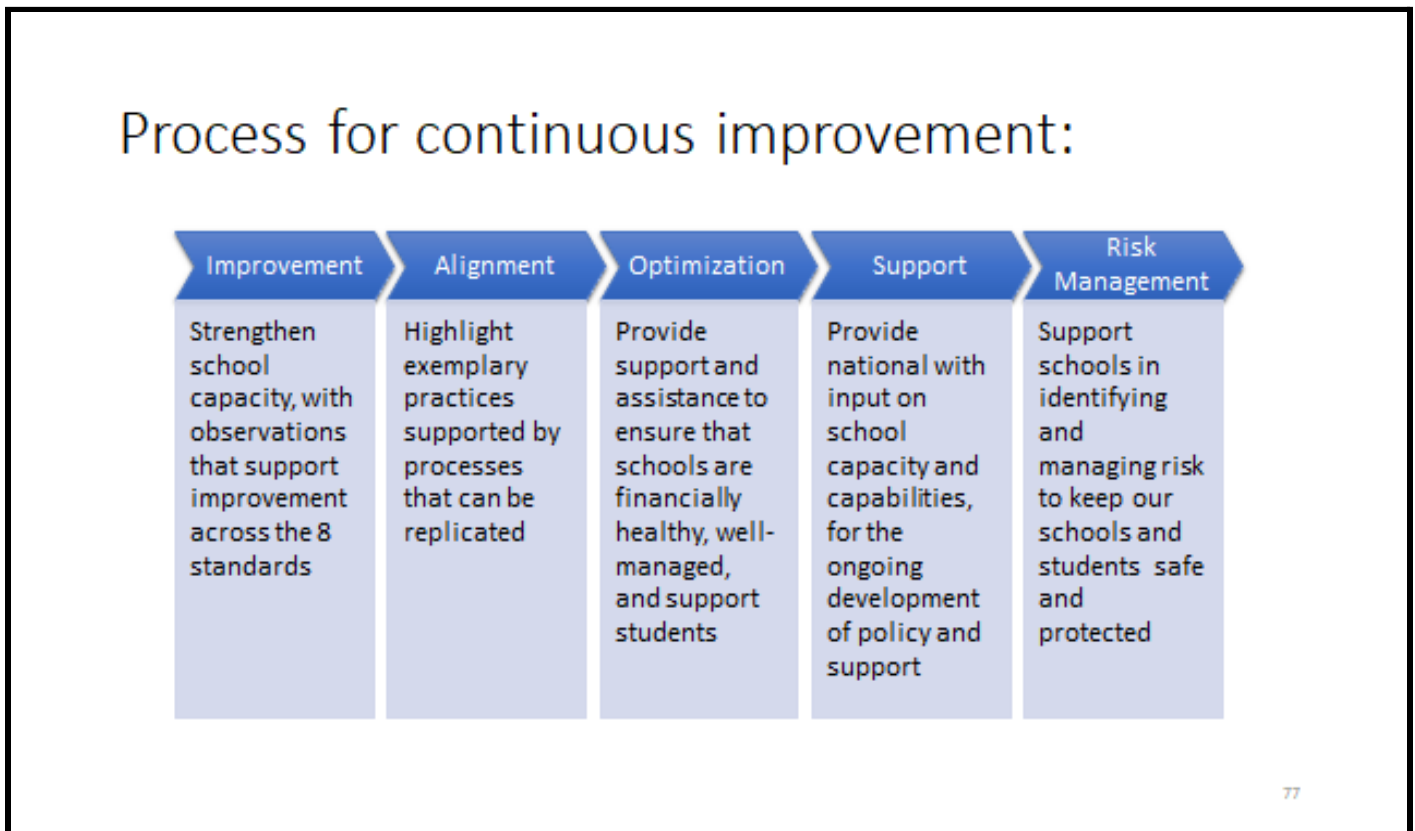

- Secure modern infrastructure through acquisition or lease arrangements to operate schools that meet community needs.
- Create a safe and inclusive environment that is conducive to learning.

2. Ensure fiscal responsibility and stability:
 - Ensuring implementation of the financial procedures and guidelines for budgeting, reporting, and auditing
 - Resource allocation
 - Securing additional revenue to cover any financial deficits

3. Fostering a collaborative culture of high expectations for teaching and learning which nurtures our Islamic values
 - Optimize and expand programs to build a students' school and classroom leadership.
 - Enhance programs to build academically engaged students that demonstrate pathway thinking.
 - Enrich and improve programs to an integrated character education program.
 - Enhance recruitment, retention, engagement, capacity and leadership of highly effective staff.

4. Encouraging good stewardship of resources by building leadership and management capacity through:
 - Leveraging and sharing best practices
 - Identifying opportunities for continual improvement

The process for continuous improvement is highlighted in the chart below:

Foundation Statements

Confident, strong, and healthy children are the cornerstone for a bright and prosperous future. Built around an integrated educational model at the school and beyond, our programs create many growth opportunities.

At MAC Schools, we strive to:

- ★ Provide high quality and viable alternatives for parents
- ★ Enhance academic achievement
- ★ Develop attitudes and behaviors for healthy living
- ★ Enrich the curriculum through:
 - Getting children physically active by helping them explore their abilities in sports and build their passion for physical fitness;
 - Providing students with comprehensive exposure to science, technology, and the world at work, including appreciation for the environment;
 - Developing students' artistic and creative talents;
 - Developing strong leadership skills and instilling a strong social and community consciousness.

Another foundational aspect of our educational program is the character-leadership initiative known as MAC iRISE. This is a research-intensive, evidence-based and community-driven integrated character education program whereby students will learn how to embody Islamic values, rooted in developing a strong relationship with Allah, while acquiring relevant life skills to help students meet the challenges of the 21st century. This will be demonstrated by the students:

- embodying the Islamic character;
- being inspired to reach their full potential;
- having a strong sense of responsibility and care, exercised through ethical engagement as global citizens;
- being prepared to RISE above the challenges that they will most certainly face.

MAC Islamic School Edmonton

The Muslim Association of Canada (MAC) established the MAC Islamic School (MIS) Edmonton in 2013. MIS is a registered full-time accredited Elementary and Jr. High school serving children from pre-school to grade 9. This is our seventh year in operation. We have about 400 students from varying cultural backgrounds. At MIS we are committed to mainstreaming Islamic values and teachings in all subject areas. We implement the Alberta Education Program of Studies along with Quran, Arabic, and Islamic Studies.

Mission

MAC Islamic School is a school of choice focusing on academic excellence that produces positively influential individuals with exceptional Islamic character, while having fun.

Vision

The purpose of our mission stems from our bearing witness to the Oneness of Allah (God), the Creator of all things and the teachings of Prophet Muhammad (PBUH). Our curriculum is informed by these Islamic moral and ethical imperatives. Those moral values are the foundation of the character building mandate entrusted to us and expected by our parent community. Through it, our students will develop a strong Muslim-Canadian identity, embody universal values and acquire relevant life skills to meet 21st century challenges.

At MAC Islamic School we are determined to teach our students to be lifelong learners, contributing members of society and to accept all of Allah swt's creations with an open heart. We strive to develop a strong relationship with Allah swt and embody the iRISE values of Rabbaniya, Integrity, Service, and Excellence. Furthermore, we want to develop the love of learning in our students and enable them to become confident and productive leaders.

Our Education Plan

MAC Islamic School Edmonton's Education Plan shares strategic priorities to support continuous improvement and provide successful experiences for all students. Thoughtful actions and reflections regarding the five interconnected domains of the Assurance Framework guides our Education Plan. The Educational Plan is aligned with MAC Islamic School Edmonton's 2021-2022 Budget.

Evidence-based decisions and reflections on various sources of data informs our Education Plan. This document is in response to the Annual Education Results Review (AERR), feedback from stakeholders, Provincial Achievement Test (PAT) results, Student Learning Assessments (SLA) and other local measures of data. As outlined in the Education Plan, MAC Islamic School Edmonton promotes high quality teaching and learning thereby supporting student growth and achievement.

Our approach is further refined by acknowledging and addressing the diverse needs of our students and the context of Islamic education within an accredited school system.

We continue to build capacity within our school community and make decisions that are responsive to the community. Furthermore, the implementation of a continuous improvement cycle of inquiry, research, strategic actions and reflective evaluation will strengthen the impact of our Education Plan.
